

Author's Profile

Rama Chandra Dhir
Odisha

Present Designation Associate Professor in Education, Bajirout Memorial College, Bhuban, Dhenkanal, Odisha, India.

Education: Ph.D.

Short Profile :

- ♦ Rama Chandra Dhir is a Associate Professor in Education at Bajirout Memorial College, Bhuban, Dhenkanal, Odisha, India.
- ♦ He has 25 years of research experience and areas of interest educational philosophy, Research methodology, Environment Science, Women Education, Yoga Science, Higher Education & allied subjects.

ABSTRACT:

Present computer provides opportunities and challenges for innovations in curriculum development and evaluation. Computer assisted instruction is a powerful tool for the teacher and the students in the instructional process. It helps the teacher to devote his time for more creative activities where the teachers can clearly plan the objectives contents, and skills to be achieved through the programme.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

In educational technology computer assisted instruction (CAI) is one major instrument through which teaching learning process is carried on. Most of the advanced countries of the world are utilizing computer assisted instruction as an effective and efficient media of instructions.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

The research investigation was carried out on the students of Higher Secondary School/College (+2), Cuttack, Kendrapara, Dhenkanal district of Odisha. The sample was selected from 3 leading Colleges in Cuttak, Kendrapara, Dhenkanal districts under Utkal University. The researcher selected 30 students (Arts, Science, Commerce) from three selected Colleges.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

The main findings of the present study are as follows. Most of the students have positive attitude towards CAI where the students take keen interest in using computer in order to gain more knowledge in class room situation. Besides this computer enhances students learning significantly as a results of which teaching learning process both for students and teaching is convenient.

Result Report: Figures are Imported to Provide Explanation for Background Information. Conclusion of This Paper Clearly Supported Results.

CONCLUSION:

The findings of the study will no doubt improve the teaching learning process in a positive manner through CAI programme. Students are taught their lessons through traditional method of teaching in higher stages where they can't improve their standard up to satisfaction but method of teaching or teaching learning process through CAI programme is more effective than any other method followed to teach subjects.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
