

Author's Profile

Madhurima Hait

West Bangal

Present Designation:

Research Scholar , Presidency University,
Kolkata, West Bengal.

Educations:

M.Sc. in Geography.

Short Profile:

- Madhurima Hait is a Research Scholar in Presidency University, Kolkata, West Bengal.
- She has completed M.Sc. in Geography.
- She has 2 years of research experience.

ABSTRACT:

The subject Geography deals with the spatial variation of different attributes over the earth's surface. The land with its landscape provides opportunities for the people to live in and that also differ depending on the geographical location. The history, culture, living style and stage of development of a social group or nation are exclusively.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

The present study regarding the geographical personality of the region concerned is reflected by various environmental and socio-economic and cultural parameters of a small village which has been studied intensively. The primary observation and collection of information have immensely help to study the specific objectives of the study.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

Intensive field work along with observation, assimilation and compilation by modern methodology have been considered to achieve and fulfill the objectives of the study, the whole work has been conducted in these stages—pre field, field and post field.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

In order to study the economic bases of the area we chose to make a market survey of the Ooty market and inferences have also been drawn from the household surveys of the Koddappamund village. Contrary to the thought that much of the local economy is now dominated by tourism.

Result Report: Figures are Imported to Provide Explanation for Background Information. Conclusion of This Paper Clearly Supported Results.

CONCLUSION:

The people are very much influenced by nearest city and their economy and culture are also carved by the nearest town. To reveal the holistic development processes the whole study has been classified into different altitudinal categories and hence the levels of development have been suggested so far as the development perspective is concerned.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
