How to Write Articles-

Here are a few basic steps to take to craft an interesting, informative article.

Method 1 of 3: Come Up With An Idea

- 1.Get to know your audience. Decide who you need to write for before proceeding with planning or writing an article. Identify the needs of your readership. What do your readers need to know? How does your own knowledge matchup against the information they need? This will be the easiest way for you to find a topic to write about
2. Be unique. If you are writing an article about something that other people are also writing about, try to be unique in how you approach the material
- 3.Be passionate. You should care about the topic you choose to write about. Your enthusiasm will show in your writing and it will be much more engaging for your readers

Method 2 of 3: Research Your Idea

- 1.Learn the basics. Get the general explanation of whatever you are trying to write about. This will give you a basic framework for what to look for as you research.
2. Find reliable sources. Now that you know what to look for, research your topic. You can use the internet, a library, conduct interviews, watch documentaries, or whatever you feel is appropriate to teach you everything you need to know about your topic. Be an expert!
- 3.Get different types of material. During your research, look for material that isn't text. This can be used or altered to add to your article.

Method 3 of 3: Write Your Article

- 1.Decide your length. Does this article have a word count? Do you need to fill a certain number of pages? Consider what type of content you're writing about and how much space that can fill, as well as how much needs to be written in order to cover the topic adequately, before proceeding with writing your article.
- 2.Outline your article. Before you begin formal writing, you will want to outline your article.
- 3.Edit your work. Before you submit your work, you will want to do some editing and revision. If time allows, wait for a day or two before editing
- 4.Respect the rights of other writers. If you are using information from an external source, be sure to cite the source at the bottom of the article.
- 5.Submit your work. When you've finished, submit your work in the appropriate manner.

ABSTRACT:

An economic system is the means by which goods are produced, distributed or marketed and consumed. Each society can and does resolve the problem of living within the limits of its own resources: land, capital and technology. It can also distribute goods according to its own priorities. Economic organization tribal communities can be classified differently, according to their environmental setting like the rural, settled and cattle herding and hunting/gathering types.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

Numerous scholars from anthropology as well as other 'disciplines have studied economic organization of simple societies ranging from most simple hunter-gatherer societies to communities which have evolved into the market economy. One can also point out numerous studies related to Indian context as well. The present study focuses mainly. On the changing economic scenario of the Malaiyali people of the Kalvaryan area.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

OVERVIEW:

- Economic Development
- Tribal Sub Plan
- Household Articles
- Cattle Sheds
- Tribal Agriculture
- Technology
- Tapioca Cultivation
- Marketing Of Tapioca

Overview Report: Figures are Imported to Provide Explanation for Background Information. Conclusion of This Paper Clearly Supported Results.

CONCLUSION:

The traditional self-sufficient agriculture-cum- pastoral economy of the Malaiyalis of the Kalvarayan hills is linked with the collection of minor forest products and the occasional small hunting. It has been found that the traditional economy of the Malaiyalis is changing into a relative market economy through the improved transport and communication systems and the available tribal development programs. The Malaiyalis of the Kalvarayan hills are not in isolation ' now. Their economy is related to the economy of the state - Tamil Nadu at micro-level.

Discussion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
