ABSTRACT:

On the basis of data collected from selected sample of fifty eight NGOs working for environmental protection and conservation in Satara district, the present paper understands the opinions of the environmental volunteers with regarding to certain issues relating to the field of environmental protection and conservation. The empirical area of the present study forms part of Western Ghats which is ecologically rich.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

The evolution of environmental issues on the agendas of international institutions can be better understood by dividing the postwar period into three periods defined by two landmark meetings: the United Nations Conference on the Human Environment, which was convened in Stockholm in June 1972 and the United Nations Conference on Environment and Development, known as the Earth Summit, which was held in Rio de Janeiro in June 1992.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

The present study was undertaken to document the environmental NGOs and their work in Satara District of Maharashtra, with a view to understand their role in environmental protection. The descriptive research design has been adopted for the present study. A list of NGOs working in the field of environmental protection and conservation was compiled by using snow-ball technique.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

CONCLUSION:

Ecologically, the Satara district occupies prominent place in Maharashtra. Especially, after 1980 with the rise in the local environmental problems and along with them increasing felt need to address these issues environmental NGOs have emerged in Satara district. To address local environmental problems many environmental NGOs have been formed in Satara district. The environmental organizations in Satara district are working spontaneously and voluntary. The nature of organizations (NGOs) are non-profit basis. Environmental volunteers were coming from highly educated families of society.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
