### Introduction

Bibliometrics is quantitative study of literature. It is the application of statistical techniques for quantification of written communication by analyzing citations. It utilizes quantitative techniques for analyzing and investigating patterns, reference, citations, author, journals, institutions, words, keywords etc. It is a promising area of research in the field of library and information science (LIS) and has realistic applications in measuring the coverage of books, journals, and articles.

#### A Good Introduction :-

*Give a method of reasoning. State your particular hypothesis(es) or objective(s), and depict the thinking that drove you to choose them. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.*

### Materials

Must add methods and materials in your article.

#### A Good Materials :-

*Methods & Materials used to per research topic.*

### Result

Must add result in your article.

#### A Good Result :-

*Results are as per aims and objective and useful to further research .*

### Conclusion

In the conclusion we can say collection building is the reputed international referred journal in the field of library and information science. Collection Building covers many types of resources and database like LISA, LISTA, Lexis-Nexis, Scopus, Web of science, Emerald etc.

#### A Good Conclusion :-

*You may propose future headings, for example, how the analysis may be adjusted to achieve an alternate target. Clarify the majority of your perceptions however much as could be expected, concentrating on systems.*

#### REVIEWER COMMENTS

- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
