### ABSTRACT

Today every person in India is willing to have their own Smartphone, and most of them used it to access the Internet. One-third of Smartphone users are online with connectivity of high speed internet. Just as the Internet changed retailing in India, every electronic system is changed today and every traditional commerce system becomes online. In this paper, I aim to document the growth and applications of E-commerce with some early effects of how mobile devices might change Internet and retail commerce.

#### REVIEWER COMMENTS

- The writing audit was careful, the approach was carefully exhaustive and fused the utilization of sufficient quantities of tests in dust size examination and blast tests.
- I discover no shortcoming at all with the routines, information examination, or conclusions.
