ABSTRACT

Kashmir is said to be the apple bowl of India, famous for the unique and delicious production of apple varieties throughout the world. The production of apple of Jammu and Kashmir has adversely been effected by Scab (*Venturia inaequalis*), which starts out as a black spots on the leaves that gradually spread throughout the leaf surface causes premature leaf fall and results decrease of apple production and minimize the revenue to the apple growers.

Introduction

In apple orchards, the most dangerous disease is apple scab (*Venturia inaequalis*), attack of scab can be so strong that it destroy a yearly production and reduces the value of fruit. Apple scabs badly hit the flowering crab trees and apple trees in the year 2013.

A Good Introduction :-

Importance of the expected results to the general inqu Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

The present study is based on primary and secondary data. Primary data has been collected from the field survey.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. Inc or supplies that are not generally found in research centers.

Result

Must add result in your article .

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

This study was an attempt to know the impact of scab on different varieties of apple. This study has been carried out in two villages Panjipora and Haigam. Among the eight sample varieties of apple, Delicious gets easily affected by scab compared to other sample varieties. While as Red Delicious and Kulu Delicious are least effected by scab.

A Good Conclusion :-

Thus, the research have wider scope for new academician and research scholars.

HOW TO INCREASE API

Services for Associate Professor to Professor

- ★ Thesis convert into book. Publish in USA - 50 API Marks
- ★ 15 Articles from your Ph.D thesis - 150 API Marks
- ★ UGC Minor Research Project - 10 API Marks
- ★ UGC Major Research Project - 15 API Marks
- ★ Call for Book Chapter - 25 API Marks
- ★ 5 Seminar Paper presentation - 50 API Marks
(we organize)

REVIEWER COMMENTS

- The presentation is pertinent and hypothesis based.
- Sufficient data about the past study discoveries is displayed for perusers to take after the present study method of reasoning and strategies.
