#### ABSTRACT

Cloud computing is new concept in the concept of information world. It is an revolution of computers and internet. Cloud computing is a really advance technology. Cloud computing has truly changed the way that can use the power of computer .The technology of cloud computing has come up as a rise for these academic libraries. It provide the chances of opportunities for libraries to connect their services with clouds computing .

#### Article Indexed in

Designation:- **Pune University .**

### Introduction

Cloud computing is just like a fix deposit storage bank ,like when we want to put information and data we can store it some very and get back when we want . Cloud computing is a process that provides services on virtual domain that are located on the top of large machines.

#### A Good Introduction :-

*Importance of the expected results to the general inqu Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.*

### Materials

Must add materials in your article .

#### A Good Materials :-

*Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. Inc or supplies that are not generally found in research centers.*

### Result

Must add result in your article.

#### A Good Result :-

*Results are as per aims and objective and useful to further research .*

### Conclusion

The history of libraries is very old and they have been used by By the hole world to get information and knowledge. Cloud Computing technology is a completely new Information Technology and it is known as the third revolution after PC and Internet in IT. Cloud Computing is the improvement of Distributed Databases, Grid Computing Distributed Computing, Parallel Computing .To provide accessibility achievements to these services library needs cloud based operating system .libraries think seriously for using of this best services .

#### A Good Conclusion :-

*Thus, the research have wider scope for new academician and research scholars.*

### SUMMARY OF ARTICLE

No.		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers		✓			
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas	✓				
4.	Timelines			✓		
5.	Sufficient information to support the assertions made & conclusion drawn	✓				
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)	✓				
7.	References & Citation (Up-to-date, Appropriate Sufficient)					

### FUTURE RESEARCH PLANNING:

1. Career For Faculty (<http://academicprofile.org/Professor/CareerForFaculty.aspx>)
2. Academic Plan (<http://academicprofile.org/Professor/AcademicPlan.aspx>)
3. Regarding Professor Promotion  
(<http://academicprofile.org/Professor/regardingPromotion.aspx>)
4. Fellowship for Post Doctoral  
(<http://academicprofile.org/Professor/FellowshipForPD.aspx>)

### HOW TO INCREASE API

#### Services for Associate Professor to Professor

- ★ Thesis convert into book. Publish in USA - 50 API Marks
- ★ 15 Articles from your Ph.D thesis - 150 API Marks
- ★ UGC Minor Research Project - 10 API Marks
- ★ UGC Major Research Project - 15 API Marks
- ★ Call for Book Chapter - 25 API Marks
- ★ 5 Seminar Paper presentation - 50 API Marks  
(we organize)

#### REVIEWER COMMENTS

- The presentation is pertinent and hypothesis based.
- Sufficient data about the past study discoveries is displayed for perusers to take after the present study method of reasoning and strategies.
