ABSTRACT

bachelor in Mechanical Engineering, Mr.Dheeraj Jadhav passed his engineering in the year 1997, from Walchand College, Sangli. He got a job in Bhosari MIDC near Pune in a company named 'Aditi Forging'. He served there as a supervisor for 3 years. His younger brother who was an MBA, had a good job at his disposal, he convinced Dheeraj that there is a lot of scope for MBAs and a bright career for management students.

Introduction

Life was going on, when suddenly Dheeraj, his cousin brother Sanjay and Dheeraj's brother-in-law Amar struck with an idea of doing some business. Dheeraj along with his brother in law and his cousin decided to start a business. The cousin brother, Sanjay was already working in MSEB (Maharashtra State Electricity Board); his brother in law Amar was an employee of Pune Municipal Transport (PMT).

A Good Introduction :-

Importance of the expected results to the general inquiry. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

In the present study, the researcher has employed the "Descriptive survey method." Descriptive method explains what exists at present by determining the nature and degree of existing conditions.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. Include or supplies that are not generally found in research centers.

Result

Maturity stages of bottle gourd (*Lagenaria siceraria*) fruit had significant influence on physical parameters.

A Good Result :-

Results are as per aims and objective and useful to further research.

Conclusion

Dheeraj still had some struggle ahead for him, the loan of Rs 2,00,000/- that he had taken under PMRY had increased to 3,00,000/- as he could not pay the interest on it. Dheeraj outrightly paid the amount of Rs 2,00,000/- that he received from the sale of the business. Now the balance of Rs 1,00,000/- still remained. As he had a job now he was confident that this amount will also be paid. Though it would be gradually as he had his family to look after too.

A Good Conclusion :-

Thus, the research has wider scope for new academicians and research scholars.
