ABSTRACT

No two individual in this universe are quite alike. They are somewhere different from one another on the level of mental, physical or interest. As far as the question of one aspect of individual difference "Interest": Each person shows his/ her interest in different areas. The concept "Individual Difference" is not only, the base of teaching-learning process but also the base of Guidance & Counseling. Knowing the individual differences of a human being, for example what does he like or what does he not like? the educational and guidance programs may run.

REVIEW OF THE ARTICLE

A Study Of The Vocational Interest Of Graduate Students Of Bhagwati College Of Education In Relation To Their Socio-economic Status

Vijay Tyagi

ABSTRACT:

The title was quite long try to make it having accurate length. The abstract was interesting and hold readers attention. There are various factors those affect the interest of a human being. These factors may be socio or economic. Due to these factors generally we see the changes in a human being's vocational and educational interest.

INTRODUCTION:

Introduction provides a comprehensive summary of the study. Family, heredity, socio-economic status etc are those factors that create variance in vocational and educational interest of human beings. Generally, it is found that Socio-Economic status is an effecting factor that affects the vocational interest of an individual time to time. It was easy to understand by reader without a specialized background.

METHODS AND MATERIAL:

Objectives of the study were stated clearly. Significance of the study was stated by the author. This was a empirical paper based on data collected on field. The population was defined clearly, both for subjects (participants) and stimulus (intervention), and was sufficiently detailed to permit the study to be replicated.

PRESENTATION OF RESULTS:

Results were organized in a way that is easy to understand. Results were presented effectively. The text was rounded off with a conclusion that comments on the implication of recent findings for the topic. Results were organized in a way that was easy to understand.

SCIENTIFIC CONDUCT:

There were no instances of plagiarism. Ideas and materials of others were correctly attributed.

REFERENCES:

Author cited all the most pertinent previous studies and explained how they relate to the current study.

SUMMARY OF ARTICLE

No.		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas		✓			
4.	Timelines	✓				
5.	Sufficient information to support the assertions made & conclusion drawn			✓		
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)		✓			
7.	References & Citation (Up-to-date, Appropriate Sufficient)	✓				

FUTURE RESEARCH SCOPE:
