REVIEW OF THE ARTICLE

Socio-economic Status (SES) Of Villages Around Godawari Biorefineires Pvt., Ltd., Sakarwadi

Dr. Pradip Ashok Saymote

ABSTRACT:

The problem statement was clear and well articulated Socioeconomic status (SES) collectively studies the investigation of the general picture of society, its condition in terms of social and economic structure. The study area is comprised of 2 districts and total 4 tehsils which cover 37 villages. In this study both primary and secondary data sources are used. The education and health care system facilities in study area seem good. The present study reveals that about 81% respondents are demanded for drinking water and 58% respondents demand for hospital service.

INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation Socioeconomic status (SES) is an economic and sociological measure of a person's work practice and of an individual's or families economic and social position in relation to others, based on income, education, occupation and other associated aspects. (Hauser & Warren, 1996). SES may be indicated by educational attainment, occupational standing, social class, income, wealth, tangible possession such as home appliances or libraries, houses, cars, or by degrees from elite colleges and universities.

METHODOLOGY:

The present study was exclusively realized on secondary data sources. It was purely descriptive type of research since it describes the facts relating to the problem. The extensive field survey is carried out and during survey (questionnaire filling) personal observation and informal interviews are conducted. In this study both primary and secondary data sources are used.

PRESENTATION OF RESULTS:

Now it is also the duty of state to frame policies so that men and women have right to adequate means of livelihood Godawari Biorefineires Pvt., Ltd., Sakarwadi is helpful to the residents by many ways. Some of the main focused points told by the farmers are: The factory is the main source of employment. The factory is supported for the economic upliftment of the residents and the standard of living is raised up to certain extent directly or indirectly.

REFERENCES:

Prior publication by the author(s) of substantial portions of the data or study was appropriately acknowledged.

RELEVANCE:

The study was relevant to the mission of the journal or its audience. The study addresses important problems or issues; the study was worth doing.
