REGIONAL BACKLOG OF DEVELOPMENT SECTORS IN MAHARASHTRA

NEHA DEVIDAS NALAWADE

Asst. Professor.
Shree Shahu Madir Mahavidyalaya, University of Pune.

Abstract:

This Paper deals with the issue of regional backlog in the State of Maharashtra. It is based on the analysis of nine developmental sector Irrigation, road, general education, Health service, technical education and vocational training, water supply, land development soil and conservation, veterinary service, village electrification. This paper has a detailed study of the above mentioned sector in the regional division of vidarbha, marathwada and rest of Maharashtra

KEYWORDS:

Regional Imbalance: Backlog, Analysis, Development, Division Government .

INTRODUCTION:

The natural resources are distributed uncerrantial in different parts of the country. And so the developmental rate of each place and thus the graph of the economic development of that state /place tend to be varied. The place /state with the abundance of natural resources or having a favourable atmosphere for development are the ones which flourish most, And thus at every stage of development the gap in progress graph is widening between the development and slow development status.

Due to the regional balances in Maharashtra, there have arisen many problems in the social, culture, economic and political areas. We see that in Maharashtra the problems are getting more and worse. This has lead to the demand of a separate state of vidarbha. The planning commission have neglected these problems or have taken them seriously. And this is the reason we see.

According to the report of the fact finding committee in under the chairmanship of Dr. V.M.Dandekar, studying the problem of imbalance between different regions of the state, have identified backlog of Rs 318678 Crores. In this a the share of Maharashtra amount up to 784 crores vidarbha amount to 117.78 crores and the share rest of Maharashtra amount up to 1285 crores.

DEFINITION

Regional disparities may be defined as unequal distribution of the fruits of economic development among different people and part of the country causing disparities and imbalance in economic development.

IMPORTANCE

- 1.The balance regional industrial development ,and the proper use of the natural and human resources in different region envisages speedy industrial development
- 2.Due to the balanced industrial development in all parts of the country there will be equal opportunity for employment.

3. The economic development of such region lead to the per head increase in the earning which lead to the alleviation of poverty.
4. The balance regional development in all region status also helps in the alleviation of enenity between statuses.
5. The balance regional development also tends to be important also to avoid the problems of centralization.
6. It also tends to be important to presence our accent cultural heritage and also to enhance the social and cultural ethos.
7. Balance regional development also helps in the equal and balanced distribution of employment and specialization.

Problems

1. There exists a variation in the industrial situation in different parts/regions/states of India which leads to the problem of imbalanced distribution of industrial growth.
2. The imbalance is increasing due historic reasons like the coastal part cities of Mumbai, Chennai, Kolkata etc. were given more importance, and As a result the other parts are denied industrial development.
3. Aspects of industrial development like transportation, electricity, water supply etc are not sufficient in some backwardness.
4. The Regional imbalance has also increased due to the evasive polices adapted at the time of planning.

OBJECTIVES OF THE STUDY

1. To make a analytical study of the section-wise backlog in the development process in Maharashtra.
2. To make a survey/review of the section-wise economic development and its backlog in different fields in Maharashtra.
3. To make a survey of the various reasons of the backlog in the economic development in Maharashtra.
4. To review the various recommendations made by the various committee regarding the backlog of the economic development in the state of Maharashtra and make a analytical study of the various measures taken up by the government.
5. To suggest remedies/measures to overcomes the backlog in the economic development of Maharashtra.

Hypothesis

1. The measures taken up the government of Maharashtra to overcome the regional imbalance are not efficient implemented.
2. The regional imbalance has increased in the state.

3.METHODOLOGY

The research in based on secondary resources. They are taken from...

1. Department of planning Mantralaya, Mumbai government of Maharashtra Publication.
2. Orders of the government of Maharashtra RajBhavan, Mumbai Maharashtra -state.
3. They annual reports of the marathwada, vidarbha, and rest of Maharashtra.
4. Summarise of the various economic edition of the government of Maharashtra.
5. Various report published by the govt. Of Maharashtra, various magazines and articles have been made use of in the research.

For the analysis of the information statically and mathematical mediums are also made use of. A statutory board for the purpose of development was establishment in each region of the state of Maharashtra in 1995, when Shri Shard Pawar held the office of chief minister. These boards have given directives about the backlog .the backlog and index committee have determined the backlog till 31 March 1994. It is as follows.

Total Maharashtra 15355.77 Cr. In it Maharashtra constitutes 4626.45 cr. Rest of Maharashtra constitution 3668.20 cr. and vidarbha has a backlog of 6961.62 cr.

Statutory Development Board in Maharashtra & the districts under them.

Total		3186.78(100)	14006.77(100)	10097.77(100)	3909.00(100)	739.73(100)	295.23(100)

Source-The Statutory Development Board Annual Report 2005-2011

SUGGESTIONS & CONCLUSION:

- 1.By reducing the proportion of the improper balance in the funds and thereby increasing the proportional funds allotted for the different backlog schemes and all this funds be utilised proportionally which will be helpful in reducing the regional imbalance in a short interval of time. Steps should also be taken to disallow and further backlog
2. A vast discrepancy can be seen existing between the sanctioned funds to eliminate the backlog and the direct expenditure. The funds allotted for the elimination of backlogs should be proportionally spent. Than only the elimination of backlog will be possibly.
3. According to the expending of the divisible regulations the amount allotted for the backward regions should be increased in the same way the regulatory expenditure and the direct expenditure should be maintained on a equal load.
- 4.To enhance the tenure of the statutory development boards
- 5.The government of Maharashtra and the governor should take extra efforts to get financial assistance from the central government for the upliftment of the poverty sticker districts of the marathwada and Vidarbha regions.

The development statutory boards were established in 1999 to compensate /fill up the backlog and for the Vidarbha, Maharashtra and the rest or Maharashtra. These boards were given extension fro 1 may 1999 to 30 April 2004. They were further given a yearly extension. In the meeting of the cabinet members held on 6 august 2005, three statutory divisional boards were established and given extension till 30 April 2010.

To overcome the regional imbalance these three divisional boards were funded with a total of 12525.87 crores. The fund was divided among these boards as follows- 3315 cr for Vidarbha board 2378 cr for Marathwada and 6381 cr.For the rest of Maharashtra.

The backlog in the nice fields of development till 1 April 2005 was as 1329.66 cr remaining in the Vidarbha, board. The remaining amount in the Marathwada board was 354.13 cr. And 1725.21 cr . Remaining with the rest of Maharashtra.

Due to imbalance fund in regional state of Maharashtra cultural, political, values economic factors have been unconditioned framework VidharBhav wants to have separate legal state constituency.

To think globally or expanded views all the three states have been floeished found financially strong balanced Mararwada & vidharabha has fruitfulness of govt, irrigation facility.

To help vidharbha 7 marathwada come up or a separate state or having its own legal status the govt. & people can from a new democratic principle to help these place suction a new identity.
