**ROLE OF FACULTY MEMBERS OF HEALTH  
ADMINISTRATION IN AIDS AWARENESS****Kamble Nagendra Kishan<sup>1</sup> and Kattuwar B.R.<sup>2</sup>**<sup>1</sup>Pub.admin. Department , S. S. P. Sr College Narangwadi , Tq. Omerga Dist. Osmanabad.<sup>2</sup>Guid , Research Center , Degloor College Degloor.**ABSTRACT**

In the year 1911 Hugen Gibbs came up with the Concept of 'social Health' generally just after the world war-II most of the nations came together with the help of united Nation organizations (UNO) to discuss about issue of health and encutually this question related with the health arose quickly and furiously in the enemy countries. In those times this health issue had really taken a serious face hence in order to solve these question efforts headwork was put in and as a result 'World Health Organization' (WHO) was formed to

increase the health status of every country men this organization has contributed lot till now.

**KEY WORDS:** health administration , united Nation organizations , 'World Health Organization' .

**INTRODUCTION :**

India, the country known for its democratic approach in every aspect has also participated in it public health and care different health service department have been built up. At state level health, Institutes parliament and executives are providing the health facilities along with this social health traditional Business, Health service schemes and medicine control Blocks have came up to promote healthy life at every district level medical officer, (Doctors) Nurse, Councilor and other work men have

been deployed and they carry out all the processes related with health so along with this AIDS awareness programmers and responsibility is also closely and keenly related with health administration.

Hence all the information regarding the working and process of the organization has been put up in this article briefly.

**DETAILS ABOUT THE AIDS:-**

Before undergoing through AIDS humans suffered with the Human Immuno Deficiency virus

#### ROLE OF FACULTY MEMBERS OF HEALTH ADMINISTRATION IN AIDS AWARENESS

---

that is (HIV) once this virus spread into the body they ravaged all the immune system of body. In fact, this virus is found in humans only and it attacks the whole Immune system after being suffered with this disease for a few period of time all the symptoms and effect of this disease are subtle. But even actually whole immune system gets damaged and due to this human body suffers with many disease and health illness problems this state is reffered as 'AIDS'.

Firstly In the year 1983 well known scientist of France 'Luc Montagnier' invented the virus which results in AIDS At the at the same time an America scientist ' Robert Gallo' also came across this virus . This virus was coined as Human Immuno Deficiency virus (HIV) as it directly attacks the human immune system. Before that, in 1981 in Los. Angeles, (America) one of the major symptom of this virus was found men involved in homo intercourse suffered with different type of pneumonia and skin diseases. And such types of illness were found in the human bodies with wickd immune system. After a period time this kind of symptoms even were found in hetro intercourse, drugs abusing, smoking and Doctors researchers came to a conclusion that such a type of disease is a consequence of virus which weakens the human immune system.

In India in 1986 at madras. Ten sex workers suffered with this virus. After a course of time In Mumbai patient was detected with AIDS who had gone through Blood transfusion while heart surgery in foreign. After that many patient were found this deadly disease. In order to curb, eradicate this disease health organization undertook the work.

#### MEANING OF WORD AIDS:-

In India the population of patient suffering with AIDS is very high WHO statistics proposal stated 50% of AIDS patients population resides in India Hence it is of utter importance for us to know the actual meaning of AIDS which is stated as below.

A-(Acquired) :- It means derived from someone's acquired by birth.

I-(Immuno) :- Immune system is attacked by this virus.

D-(Deficiency) :- It reduces the immune-system in human body.

S-(Syndrome) :- It is not a disease- it is community of symptoms.

Thus how the information of related with AIDS has been expressed briefly.

#### ROLE OF FACULTY MEMBERS OF HEALTH ADMINISTRATION IN AIDS AWARENESS:-

In India in order to control and eradicate this deadly disease different schemes and programmes have been carried out at different levels. And most of the district departments, mass movement are effectively spreading the message of AIDS awareness. If we take a look at state like Maharashtra there are 644 Integrated Counseling and Testing (ICTC) carryout their work of AIDS awareness and control, out of them 63 are alone at Mumbai Along with 7 primary health centres,41 Public Private Partnership ( PPP) 3 mobile ICTC centers and remaining have been distributed within 33 districts with a 578 no of working centers. There are over 1811 primary health centers, 852 PPP centers, 8 mobile ICTC are working lot efforts have been put in to carry out the AIDS awareness. This whole sum of activities programmes are run by the administrative staff of organization which plays a crucial role in the same therefore the brief knowledge about them is shared below.

#### 1) Role of district programmer officer in AIDS awareness :-

This awareness is not just in India albeit every country has become a part and parcel for this initiative to curb this lethal disease and different schemes, programs are being carried out by them. In

## ROLE OF FACULTY MEMBERS OF HEALTH ADMINISTRATION IN AIDS AWARENESS

---

this activity different members act different stages/level are stretching helping hands. At district level the job of conducting various activities of awareness are done by the District AIDS awareness management or control executive officer have been employed. All the projects which have been laid down by the member related with this awareness programmers solely putting their efforts for the welfare of public.

### **2) Role of Medical officer in AIDS awareness :-**

In India various plans have been conducted to uproot the AIDS albeit most of the work is in the hands of health administration, ones it comes to health Department a medical officer is crucial part of that department so the whole work of awareness is being carried out by this officers. At district level, medical officers play a vital role as it control the urban area along with the countryside region. Hence all the programmers' schemes plans laid down related with AIDS awareness have been conducted through this medical officer successfully. And on the top of that at first, a parson suffering with HIV/AIDS refers to medical officer. In this way a medical officer performs a key role in AIDS awareness.

### **3) Role of counsellor in AIDS Awareness :-**

In AIDS awareness a major role is of counsellor offer a medical Officer. This designated post of counsellor has been playing a major role in patient's life or for the awareness. This is because person softening with AIDS directly makes a contact with counsellor for solving their problems difficulties. These are the members who motivate the patient to face this deadly illness boldly and live a happy life. In fact, all such things like boltstering patient for further leading their life without going into the state of stress and depression are done by this people. And surprisingly, patient suffering with AIDS have really tried a big to improve their health status eventually for a better living such a ray of hope and motivation is given by counsellors. And they really play a very distinct and immense vital role.

### **4) Role of Nurse in AIDS awareness :-**

As the role of District AIDS controller, Doctors, counsellor is of great importance sirnilar is the role of Nurse in awareness of AIDS. While giving good Nursing service they really have to face many problems and difficulties. And in case of patient suffering with AIDS/HIV they have to take proper care of them along with handling their health in good state. So, it is a big challenge and herculean task for them in this way role of Nurse is also of major importance.

### **5) Role of other members of health administration in AIDS Awareness :-**

Members of health administration they also are caring out a major job of serving patient through one or the other way and their contribution in AIDS awareness is also of much importance as that of doctors, counsellors, Nurse and health administrator service centers, Blood test, x-ray, housekeeping facility such a department are adding the required help in that critical situation therefore, today we can see health administration have achieved the success in curbing this deadly disease.

### **EVALUATION:-**

While going through the role of health administration in AIDS awareness it is found that the organization wholly solely putting their effort to get rid of this disease. At international level different projects and plans are being working out and many nations are becoming part and parcel of this. In fact the role of district AIDS control administrator, doctors, Nurse, Counsellor, house-keeping faculty,

#### ROLE OF FACULTY MEMBERS OF HEALTH ADMINISTRATION IN AIDS AWARENESS

---

X-ray and blood test department are of immense need. And it is their efforts and hard work which have really worked to curb this one of the most deadly disease. Today the population of patient suffering with AIDS is merely 25 lakh as compared to 49 lakhs in 2000 which has drastically come down from much bigger. It is just due to the support of health administration and associated staff of that organization.
